400m²

3,067m²

This is a large house with lots of potential on the edge of the village. The house was designed by a professor of architecture at the University of Sevilla and built to the current owners specifications. There is a large living room with dining area and connection to a huge summer room across the back of the house giving access to the swimming pool and bar area, a big country style kitc (See all details on our web page...)
